2	Enrollment Fee	50,000	To be payable in case of admission
3	Semester Dues (excluding Hostel/Transport Charges)	As per prevailing fee structure	To be payable in case of admission in respective program

Note: Above mentioned charges are subject to change

Existing Rules & Regulation (can be changed by IST as and when required)

- Student(s) who has completed at least ONE semester of his/her MS/PhD degree program at HEC recognized and PEC accredited institutions(s) will be eligible to apply for transfer only.
- Transfer request(s) by the student(s) of a non-Outcome Based Education (OBE) will not be considered for transfer.
- Transfer request(s) by the academically suspended or dismissed students will not be considered for transfer/admission.
- A maximum of 09 credits can be transferred at graduate level provided that transferable courses are completed with a minimum of B+ grade and meet the program requirement(s) as established by the concerned accepting department/program.
- For transfer only those courses will be considered that are comparable to the courses being offered in a specific degree program of IST with at least 75% content similarity in terms of scope and depth.
- Acceptability of transfer credits towards a specific degree program will be determined by the concerned department(s). In this regard the members of the DBS of the concerned department will mainly be responsible to establish the course equivalency for the requested transfer courses in terms of scope, quality and rigor of content.
- Academic department(s) is authorized to accept/reject course credits for transfer considering the elapsed time since the transferable course was completed, as per degree completion timeline.
- A course completed at a lower tier of study program is nontransferable to a higher level degree program e.g., course done at bachelor/diploma level is nontransferable to master's degree program.
- Transfer Students (MS/PhD) will be required to complete their degree requirements within the maximum duration of degree program (as per IST/HEC rules). In this regard the duration of degree completion will be determined by calculating the time period starting from student's initial registration in the degree program at the last/ex attended institution. Therefore, request(s) for extension will not be considered in this regard.
- All the accepted courses for transfer will not be reflected on student's transcripts issued by IST. Therefore, at the time of degree completion an additional transcript issued by student's last attended institution will be attached with IST transcript. Thus, grade(s) earned in transferred course(s) will not be counted towards calculation of student's CGPA at the time of degree completion.
